TECHNICAL DATA SHEET ANTIQUE
ANTIQUING AGENT FOR STAMPED FLOORS

DESCRIPTION

The ANTIQUE product, based on solvents, pigments and additives, is used to antique stamped floors.

It is used after stamping the surface with the Retop liquid release agent, for both indoor and outdoor work, where the DS-R powder release agent cannot be applied.

APPLICATION METHOD

On a thoroughly dry, clean stamped floor, apply a first coat of DS-CS resin; once the floor is dry, spray-apply the ANTIQUE liquid antiquing agent; wait for the product to dry and, if necessary, apply a second coat. When the treated surface is completely dry, protect the surface with a final coat of DS-CS resin

WARNINGS

Under normal conditions of use, the product is not harmful to those handling it. Ventilate the work area. Do not eat, drink or smoke during application; wear protective clothing such as gloves, goggles and a mask.

The use of the product is recommended for professionals only.

COVERAGE

20 litres are sufficient for approximately 100 m^2

STORAGE

The product in its intact original container has a shelf life of 12 months

PACKAGING

20 litre metal pail.

The information contained in this data sheet is based on the best practical or laboratory experience as at the date shown above. We cannot therefore guarantee that it is exhaustive, since the use of the product is not under our direct control. It is the Customer's responsibility to verify that the product is suitable for its intended use. Design Systems reserves the right to change this information without notice. The user is required to ensure that this information is suitable and complete in relation to the specific use to be made of it. This data sheet cancels and replaces all previous editions. Design Systems recommends always carrying out tests before applying the product, in order to ensure the suitability of the product itself.
